

PRODUCT DATA SHEET

Datasheet | Rev. 1.4 | Date: 01/01/2026

UTTIL PRODUCT CODE: **PRUK06-AN (with Trapezoidal Blade), PRUK06-ANH (with Hook Blade)**
Safety Utility Knife, Auto-Retract, Industrial Compostable Bio-plastic Body

Intended Use : Fast, controlled opening of cartons, tapes, films and general packaging
Key Benefit : Safer operation with automatic blade return; clean, straight cuts on corrugated and board

Key Features

Auto-retract safety : Blade returns when the trigger is released to help reduce injury risk.
Trapezoid geometry : Stable edge for straight lines and multi-material utility work.
Ambidextrous handling : Comfortable for right or left-hand workflows.
Fast blade change : Tool-less swap for minimal downtime, with a unique body-lock mechanism.
Trigger grip : Confident hold with hands for cutting high-strength materials.
Compostable Body : TÜV OK Compost - Industrial certified bioplastic. (Certification Number: TA8011601078)

Technical Specifications

Overall length : 160 mm
Net weight : 45 g +/- 0.5 g (Include blade)
Blade extension positions : 21 mm
Blade change : Tool-less
Blade compatibility :

Standard 60 mm trapezoid utility blades

(Mozart AG Blades 975.064, 975.065, 90975.064, 90975.065)

Standard 51 mm hook blades

(Mozart AG Blades 104.050, 104-064, 110.050, 110.064, 110.065, 115.064, 115.065, 117.067, 119.067, 160.64, 160.65, 160.66, 117.068, 90104.064, 90105.064, 90110.064, 90110.065, 90114.064, 90115

Mechanism : Spring-assisted auto-retract
Handle material : TÜV OK Compost - Industrial certified bioplastic.
Slider/Carriage : Glass-fibre reinforced PA6.6
Body Lifetime on soil : 70 years+
Body Lifetime at facility : Depends on the facility processing method it is up to 30 days to 3 months
Country of origin : Manufactured and assambled in Türkiye, blades are Made in Germany.
Warnings :

The white PLA body is an organic compound and should not be mixed with oil-based plastics during recycling. Please ensure that the PLA body is disposed of with compostable waste.

PRODUCT DATA SHEET

Datasheet | Rev. 1.4 | Date: 01/01/2026

UTTIL PRODUCT CODE: **PRUK06-AN**

Safety Utility Knife, Trapezoid Blade, Auto-Retract, Industrial Compostable Body

Performance & Use

- Recommended materials** : Corrugated cardboard, carton board, packaging tape, shrink/stretch films, plastic wraps.
- Cut technique** : Shallow score & deepen; maintain ~10–20° blade approach angle along a metal straightedge for clean lines.
- Best for** : Receiving, fulfilment, retail back-of-house, light assembly lines.

Safety & Compliance

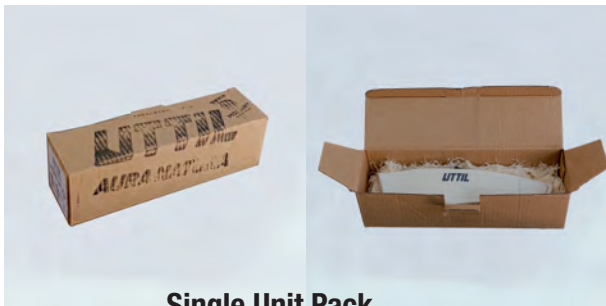

- Primary control** : Auto-retract blade return on trigger release.
- PPE guidance** : Cut-resistant gloves, closed footwear, eye protection as per site policy.
- Standards & directives**: RoHS/REACH material conformity; site EHS rules.
- Warnings** :
Keep away from children; transport with blade fully retracted; do not bypass safety mechanism.

Maintenance

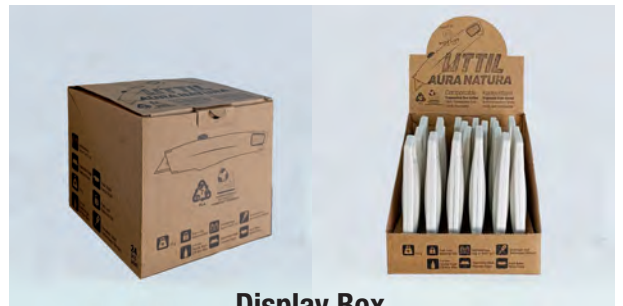

- Blade service** : Replace at first sign of dullness, burrs, chipping and do not increase cutting force.
- Cleaning** : Wipe with a slightly damp cloth; avoid aggressive solvents on polymer parts.
- Inspection interval** : Daily visual check of spring return, slider integrity, and fasteners.

Packaging & Logistics

- | Item | Detail |
|-------------------------|---|
| Single unit pack | : 50 mm x 50 mm x 18 mm corrugated box, includes Mozart 90110.065 blade, 10 g organic cotton oukum, user information leaflet. Weight :80 g |
| GTIN / EAN | : 8683860773394 |
| Master Carton | : 195 mm x 200 mm x 490 mm, contains 24 single unit packs G.W. : 2 kg |

Single Unit Pack

Display Box

Display Box for 24 pcs: 173 mm x 160 mm x 183 mm corrugated box, includes Mozart 90110.065 blade and user information leaflet

- GTIN / EAN** : 8683860773509 (for 24 pcs box)
- GTIN / EAN** : 8683860773585 (for the single unit EAN code label on the product)
- Master Carton** : 380 mm x 170 mm x 495 mm, contains 12 display boxes (12x24=288 pcs), **G.W.** 13.4 kg
- Customs HS code** : 82119300010
- EU Custom Regulation** : Comes with ATR1 certification to prevent custom duty in the EU.

Diagram

Notes & Disclaimers

Product specifications may change without prior notice.
Use only approved replacement blades.
Always follow site-specific safety procedures.

Ergonomics: Neutral wrist posture, light pressure, stable stance; 3-minute micro-break every 45–60 minutes.

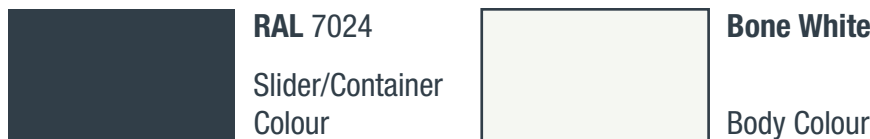

Sustainability:

Recyclability of handle material	: Organic Compost
Recyclability of slider/carriage material	: Plastic Recycle
Recyclability of blade material	: Blade bank recommendations for spent blades, iron/steel recycling.
Recyclability of packaging material	: Paper Recycle

Warranty

All UTTIL products are guaranteed by the manufacturer against manufacturing defects.

Colours:

This product's body colour is the original colour of the bioplastic to prevent the release of harmful chemicals during the composting process. This natural colour may show slight variations during processing.

UTTIL
DESIGN FOR A BETTER FUTURE

(TUR) UTTIL Aura Natura'yi seçerek bizimle birlikte daha iyi bir geleceğe yaratmaya yardımcı olduğunuz için teşekkür ederiz.
(CZE) Děkujeme, že jste se rozhodli pro UTTIL Aura Natura a pomůžete nám tak vytvářet lepší budoucnost.
(DAN) Tak, fordi du hjælper med at skabe en bedre fremtid sammen med os ved at vælge UTTIL Aura Natura.
(DEU) Wir danken Ihnen, dass Sie mit Ihrer Entscheidung für UTTIL Aura Natura dazu beitragen, eine bessere Zukunft zu schaffen.
(ENG) Thank you for helping to create better future with us by choosing UTTIL Aura Natura.
(FIN) Kiitos, että autat meitä luomaan parempaa tulevaisuutta valitsemalla UTTIL Aura Naturan.
(FRA) Merci de nous aider à créer un avenir meilleur en choisissant UTTIL Aura Natura.
(GRE) Σας ευχαριστούμε που συμβάλλετε στη δημιουργία ενός καλύτερου μέλλοντος μαζί μας επιλέγοντας την UTTIL Aura Natura.
(HUN) Köszönjük, hogy az UTTIL Aura Natura választásával hozzájárult a jobb jövő megteremtéséhez.
(ITA) Grazie per aver contribuito a creare un futuro migliore con noi scegliendo UTTIL Aura Natura.
(NNO) Takk for at du bidrar til å skape en bedre fremtid sammen med oss ved å velge UTTIL Aura Natura.
(POL) Dziękujemy za pomoc w tworzeniu lepszej przyszłości wraz z nami poprzez wybór UTTIL Aura Natura.
(POR) Obrigado por ajudar a criar um futuro melhor conosco, escolhendo a UTTIL Aura Natura.
(RON) Vă mulțumim pentru că ne ajutați să creăm un viitor mai bun, alegând UTTIL Aura Natura.
(RUS) Спасибо, что помогаете создавать лучшее будущее вместе с нами, выбрав UTTIL Aura Natura.
(SPA) Gracias por ayudarnos a crear un futuro mejor eligiendo UTTIL Aura Natura.
(SWE) Tack för att du hjälper till att skapa en bättre framtid tillsammans med oss genom att välja UTTIL Aura Natura.
(JPN) UTTIL Aura Naturaをお選びいただき、私たちが共により良い未来を築くお手伝いをいただき、誠にありがとうございます。

UTTIL
DESIGN FOR A BETTER FUTURE

(TUR) PLA beyaz gövde organik atıklarla beraber atılmalı ve plastik geri dönüşümüne yollanmamalı. Gri renkli bıçak taşıyan mekanizma plastik geri dönüşüme atılmamalı.

(CZE) Bílý tělo PLA by mělo být zlikvidováno spolu s organickým odpadem a nemělo by být odesláno k recyklaci plastů. Šedý mechanismus nesoucí čepel by měl být zlikvidován v rámci recyklače plastů.

(DAN) Den hvide PLA-del skal bortskaffes sammen med organisk affald og må ikke sendes til plastgenanvendelse. Den grå bladholder skal bortskaffes sammen med plastgenanvendelse.

(DEU) Der weiße PLA-Körper sollte mit dem organischen Abfall entsorgt und nicht dem Kunststoffrecycling zugeführt werden. Der graue Klingemechanismus sollte dem Kunststoffrecycling zugeführt werden.

(ENG) The PLA white body should be disposed of with organic waste and not sent for plastic recycling. The grey blade-carrying mechanism should be disposed of in the plastic recycling.

(FIN) PLA-valkoinen runko on hävitettävä orgaanisen jätteen mukana, eikä sitä saa toimittaa muovin kierrätykseen. Harmaa terän kiinnitysmekanismi on hävitettävä muovin kierrätykseen.

(FRA) Le corps blanc en PLA doit être jeté avec les déchets organiques et ne doit pas être recyclé avec le plastique. Le mécanisme gris qui contient la lame doit être recyclé avec le plastique.

(GRE) Το λευκό σώμα του PLA πρέπει να απορριπτεί μαζί με τα οργανικά απόβλητα και να μην ανακυκλώνεται ως πλαστικό. Ο γκρι μηχανισμός που φέρει τη λεπίδα πρέπει να απορριπτεί στην ανακύκλωση πλαστικών.

(HUN) A PLA fehér testet szerves hulladékkal együtt kell ártalmatlanítani, és nem szabad műanyag újrahasznosításra küldeni. A szürke pengé tartó mechanizmust műanyag újrahasznosításra kell elküldeni.

UTTIL
DESIGN FOR A BETTER FUTURE

(ITA) Il corpo bianco in PLA deve essere smaltito con i rifiuti organici e non deve essere inviato al riciclaggio della plastica. Il meccanismo grigio che sostiene la lama deve essere smaltito nel riciclaggio della plastica.

(NNO) Den hvite PLA-kroppen skal kastes sammen med organisk avfall og ikke sendes til plastgjenvinning. Den grå bladholdermekanismen skal kastes i plastgjenvinningen.

(POL) Biała obudowa PLA należy utylizować wraz z odpadami organicznymi i nie przekazywać do recyklingu tworzyw sztucznych. Szary mechanizm noża należy utylizować w ramach recyklingu tworzyw sztucznych.

(POR) O corpo branco do PLA deve ser eliminado com resíduos orgânicos e não enviado para reciclagem de plástico. O mecanismo cinzento que suporta a lâmina deve ser eliminado na reciclagem de plástico.

(RON) O corpo branco do PLA deve ser eliminado com resíduos orgânicos e não enviado para reciclagem de plástico. O mecanismo cinzento que suporta a lâmina deve ser eliminado na reciclagem de plástico.

(RUS) Белый корпус PLA следует утилизировать вместе с органическими отходами и не отправлять на переработку пластика. Серый механизм с лезвием следует утилизировать вместе с пластиком.

(SPA) El cuerpo blanco del PLA debe desecharse con los residuos orgánicos y no enviarse al reciclaje de plástico. El mecanismo gris que sostiene la cuchilla debe desecharse en el reciclaje de plástico.

(SWE) Den vita PLA-kroppen ska kasseras tillsammans med organiskt avfall och får inte skickas till plaståtervinning. Den grå bladhållaren ska kasseras i plaståtervinningen.

(JPN) PLA製の白色本体は、有機廃棄物として処分し、プラスチックリサイクルに出さないでください。灰色の刃を保持する機構は、プラスチックリサイクルに出してください。
